Note: The *Creating a Joint Advanced/Preliminary (A/P) Arrangement* guide explains how to complete this task using a desktop computer. The menu options are the same whether using a desktop or mobile device.

In the Main Residency Match, an institution can link an advanced (A) program with a preliminary (P) program to create a full course of training for applicants interested in programs that begin training in the PGY-2 year. This arrangement is called Joint Advanced/Preliminary or “Joint A/P”.

- This feature limits the ranking of the preliminary program track to only those applicants who also ranked the advanced program.
- Only applicants who match to the advanced program can be matched to the preliminary program track, even though it is possible not all applicants who match to the advanced program will match to the preliminary program.
- Joint A/P arrangements must be entered into the Registration, Ranking, and Results (R3®) system prior to the January 15 opening of the rank order list function.

Creating a Joint A/P involves two phases:

1. The preliminary program that will be joined to the advanced program is created in the R3 system.
2. The advanced program will be joined to the preliminary program in R3 to create the Joint A/P arrangement. Only the advanced program has the ability to edit the Joint A/P status.

Login:

1. Enter the **Username** and **Password** you created for accessing the R3 system.
2. Click **Login**.
